1. **RHC (Rural Health Clinic) Operational Roll-Out** - this will financially benefit the hospital and the program will allow for reinvestment into expanding quality patient care in the community.

2. **Hospitalist Program** - this revamping of the program will allow for reduced costs to provide service and increase quality care.

3. **Documentation, Education, and Reconciliation Process pre/post-Cerner** - this is to increase our HCAHPS scores, and employee and physician satisfaction and improve quality care navigating into a new computer system.

4. **340b Optimization** - this program allows for hospitals with a high Medicare and Medicaid patient population to provide financial benefits serving our vulnerable communities and manage rising prescription drug costs.

5. **Hospital Infusion potential services using 340b** - review expanding the 340b program to include infusion outpatient services in the hospital.

6. **Operating Room & Emergency Department Optimization** - review techniques and processes and partner with our physicians and employees to increase patient access to the OR and ED.
