The Jail Authority Board reviewed the McKinley County Adult Detention Center's intakes at its Feb. 23 meeting.

Christopher Sice, the misdemeanor compliance program manager for McKinley County, guided the board through the compliance report.

He reported that \$4,419 had been collected for the DWI program, and that \$5,676.17 had been collected for the compliance program, for a total of \$10,095.17.

In telling the board about supervised probation defendants, Sice said 13 percent of them had completed a treatment program, 11 percent were still attending one, 52 percent did not attend one, 1 percent did not complete a program, and 23 percent did not have a treatment program ordered.

After all the updated reports were given, the board toured the Adult Detention Center over Zoom.
