

The Sun is in Pisces and a Full Moon emerges on March 12. Prepare for a wild ride. You may feel like a watering pot, but it's time to kick out the weeds. It's up to you to take on the world and get moving. Spring is just around the corner, and NOW, is the perfect time to get in shape and ready for Ibiza. Madame G suggests you get outside and enjoy!

Aries (March 21-April 19)

Growing pains are painful. But, this too shall pass. In this life, you sometimes outgrow friendships. This doesn't demean what you had. You may continue to love them even, if they're no longer in your life. Remember, nothing is permanent. They may yet return—any maybe they won't. Either way, it's time. The only way forward is one step at a time. March on!

Taurus (April 20-May 20)

Life isn't easy, but it doesn't need to be difficult. Sometimes, we create the problems in our lives that doesn't need to be there. It's easy to say "you don't like drama." But, if you're the person running around creating chaos, you might just love drama. Don't be afraid to change your perspective. Take a walk, and run towards, your destiny because the time for change is now.

Gemini (May 21-June 20)

Your life is yours to live. So, why are you hanging around hoping it will change? The only person who can shape your life is you. Don't let a boss, girlfriend, or TV show rule your future. Take action now. If you want to lose weight, get outside and exercise. If you want a new job, get career training. This is your life—live it!

Cancer (June 21-July 22)

Nothing beats hope for a better future! Except action of course. You must believe that you can change, but you must also take steps in order to ensure you get there. If you don't want to wake up with regrets, you better put some fire under your butt. Get outside and enjoy the fresh air. Work your body hard and get where you need to be. This is your time. Go!

Leo (July 23-Aug. 22)

Live large! The time for games and playing is upon you. Get out the horse shoes and dancing shoes and take those caballos for a walk. Your job is to enjoy the sun and blue skies. There is no other time, but now. Follow your heart along the beaten, and less beaten paths, for there you will discover great truths. In this life, you're always growing or stagnant. Live well!

Virgo (Aug. 23-Sept. 22)

Your heart says yay, but your head says no. Which is right? Only the devil knows. It's up to you to decide. Stop fearing the unknown answers. There is no right or wrong direction. You chose right or left and north and south. You don't need to know the entire truth. So, get out a map and pick a direction. Once you've made up your mind, you can take time for details. Get going.

Libra (Sept. 23-Oct.22)

Your heart is a tender flower. In order for it to grow, you need good soil, sun, and rain. This means you must let others inside and share yourself. This is often painful, if you don't know how. But, as you care for others they soon care for you in return. You don't need to run from emotion. Embrace it and show yourself that you're worth it. Love and be loved in return.

Scorpio (Oct. 23-Nov. 21)

Life is a stage. There are good plays and bad. Good actors and poor ones. You may feel like a failure, at times, but is this really the honest truth. Perhaps the universe is merely getting you ready for your next performance. It's never too late to start over. It's never too late to be better. Take a deep breath and prepare, for the show is starting. Break a leg!

Sagittarius (Nov. 22-Dec. 21)

Your leg looks healed. Was it a fake injury? Perhaps your merely faking feelings or emotions. Maybe you have visions of grandeur. Whatever the case, you should stop. Get focused in the here and now. What do you want? What will you do to get it? Your heart is not an infinite device one day it will stop. Your life is for the living. Don't stop now. Get going.

Capricorn (Dec. 22-Jan. 19)

All that complaining will get you nowhere. It's about as good as an opinion everyone has one (and something else...). Your heart may be weary, but are you the master of the chaos? Perhaps you generate more than you know. Stop martyring yourself and make a change. The ending is when the fat lady sings at the end of a movie: FIN. Until then, stop moaning about. Go!

Aquarius (Jan. 20-Feb. 18)

Your heart is in the right place, but is your head? You may think you're doing the right thing. You may have lost a few marbles. It's never easy admitting your wrong or you've made a bad decision. But, it's better to admit it sooner rather than later. Stop hesitating. Take a good hard look in the mirror and smile. For you are the center of the issue and you can change it. Act now!
