

***The Sun exits Taurus and enters ever-changeable Gemini. Expect the unexpected. You may discover new things about yourself this month. Madame G suggests you take a risk and try new things. Travel to new places. Eat new foods. Meet new and exciting people. Try something you've never tried before. You may just surprise yourself. Give life a chance! Live well.***

### **Aries** (March 21-April 19)

You're heading into a new chapter. This is exciting. You've probably noticed that developing muscles takes effort. It can be painful. Don't fret! This is to be expected. It's the growing pains before enlightenment. You're on the right track. Madame G suggests you take a long hard look in the mirror repeat this every day: "I'm capable and worthy." Good luck!

### **Taurus** (April 20-May 20)

As the Sun exits your sign, you may feel a tinge of regret. What have you left undone? Now is not the time for wallowing. Get out there and get fixing. Whatever needs to be done—do it now! There is no time like the present. There is no time to waste. You're capable of doing everything that needs to happen. The way to eat the elephant is one bite at a time. GO!

### **Gemini** (May 21-June 20)

Welcome! The Sun is shining on you as it enters your sign this month. You have great expectations and hope—you also have great fear. Fear of what? The future, society, life in general, perhaps you've grown afraid of stagnation. Whatever the case, you know the answer. Go out and discover something new. Experience life's pleasure's in your daily life. Live free!

**Cancer** (June 21-July 22)

Your starting out on a new journey. What will it entail? Do you have a plan and a map? Maybe you're just doing research. Whatever the case, your heart is calling you away from the den and out into the open. Is it time for a new house? Maybe you're shedding your shell. Go out and find a new one. Find a new purpose. Find hope and happiness. Take on the world!

**Leo** (July 23-Aug. 22)

Have you made friends with all the little animals of the Earth? If so, good for you. Maybe you've a family of geckos living in your wall and a chipmunk in the closet. Perhaps the spiders on the roof are encouraged to hunt by a friendly broom. You have more wisdom than most. Take heart and share kindness with the world. For what else is there, but finding joy with others?

**Virgo** (Aug. 23-Sept. 22)

Heading to a new city? It might be time for relocation when you feel you've seen all there is to see. It could be that you've had every conversation imaginable. You may have heard all the gossip and learned all the secrets. If you're stagnating—it's time to move onward. But, how? The first step is taking action. The first step is taking the first step. Put on your walking shoes. GO!

**Libra** (Sept. 23-Oct.22)

The most important this is making the first thing—the first thing. Stop reprioritizing your life to satisfy a crisis. Stop getting distracted by petty things. Stop neglecting yourself. Though it's hard you may need to tell your loved ones, co-workers, and friends: NO! You don't have time. You must take action for yourself. The time is now not later—NOW! No excuses.

**Scorpio** (Oct. 23-Nov. 21)

Sometimes the most important thing is letting go and moving on. You may hang onto the job, relationship, and duty with the strength of a thousand swords—what good is it? By not letting go of what you should, you prevent what should enter your life from entering. This is tragedy. You're missing out on a better life, by refusing to see what's already there. Live free.

### ***Sagittarius*** (Nov. 22-Dec. 21)

You've taken action and now you must act faster. You don't have time to waste. You don't need it to be perfect, but now is the time for action. Once you've taken it, enjoy the outcome. You must live according to your conscience. Only you know what's acceptable and what isn't. Only God (and the law) can judge you. The rest, well that's up to interpretation. Seek peace.

### ***Capricorn*** (Dec. 22-Jan. 19)

You're heading out on a new path. What will happen? What won't happen? Are you prepared. Only you know. Instead of looking to others for the answer look within yourself. You know if this is the right thing for you. You know if it's wrong. Take a long walk in nature. Breathe deeply and enjoy the day. Find pleasure in the simple things. It's worth it.

### ***Aquarius*** (Jan. 20-Feb. 18)

You have some explaining to do... You're ready for commitment and taking the next step, but are you really? What are you afraid of? What's holding you back? This is life. You get one shot to try new things and live the best life you can. You may pursue whatever activities you like—but what's worth your time. Choose wisely. You may regret your choice, either way.

### ***Pisces*** (Feb. 19-March 20)

## Madame G guide to the stars WEEK OF MAY 19

If at first you don't succeed, try, try again. Unless you've insulted that person to their face. Seek deep within your soul. What are your motivations? Are you driven by fear or insecurity? Maybe the other person noticed. Maybe they'll forgive you—perhaps they won't. Forgive yourself and live, that's all you can do. It's a lesson well learned.
