

A New Mexico spring is a sight to behold. One minute birds are singing and the sun is out; the next moment, wind is ripping through your yard while hail beats down. It's pretty unpredictable, but if you hold on you'll experience beauty. Madame G recommends that you hang on for the wild ride of the Last Quarter Moon on June 7. You might as well smile like it's a rollercoaster.

Aries (March 21-April 19)

You have a generous heart, open mind, and outstanding physical prowess. You're talented. But, you have a tendency to give so much you burn out. Before you implode from overwork, take a moment to appreciate what you've accomplished. You're amazing! You should be proud of what you've done. Give yourself a little break from the negative talk. Keep calm and carry on.

Taurus (April 20-May 20)

The heart is a lonely hunter. That's the beautiful title to Carson McCullers book. She was 23 when it was published. If you're afraid that life will pass you by or that you haven't accomplished enough, stop worrying. You're doing the best you can. We are all living a journey that we don't fully understand. We are in this together, but we need to give ourselves a break. Be kind.

Gemini (May 21-June 20)

What's on your mind Gemini? If you've been focused on a certain topic or question for some time, allow yourself the time to try out new avenues of thought. You might just find the answer while enjoying a wine & painting event, attending an art opening, watching a movie, or talking with friends. You never know what you'll find until you get out there and try it. Go!

Cancer (June 21-July 22)

You're hopeful for the future. And you should be. Your life is good. Continue to be honest and share what you know to be the truth in a thoughtful conscientious way. No one likes a dictator. They may listen to you out of fear or annoyance, but they won't respect your opinion. They certainly won't follow you into the jungle or into war. Do you want 'yes men' or friends?

Leo (July 23-Aug. 22)

What's in your heart? You have good news to share and victories to announce. You must push forward and embrace the day. It's a wonderful world we live in, but we have to do more than wish for the best. You need a community to rely on. It's not enough to pursue your dreams alone. You need friends to help you when you're feeling run down. Do your best along the way.

Virgo (Aug. 23-Sept. 22)

You're doing what you need to for you. Don't let others dictate what is best. Only you know, if your life aligns with your values. Keep in mind that all human beings can change and make better and worse decisions. There is always an option to try a different path. But, you must take the road you believe will serve you best throughout your life. Good luck!

Libra (Sept. 23-Oct.22)

Your life is an open book except for the parts that aren't open to anyone. Instead of hiding away the best parts for yourself, consider how it looks to others. If you come across as cold and conceited, people will work for you, but they won't be loyal. Try opening up to others and let them help you. No man (or woman is an island). Success is accomplished together.

Scorpio (Oct. 23-Nov. 21)

It is a time of high emotion right now, Scorpio. But that does not have to become negative. Embrace the things that give you the energy to live. Allow yourself to become who you need to

be. Those who are around you adore you, give them your time as you see fit.

Sagittarius (Nov. 22-Dec. 21)

Your heart is an open book with faded and sometimes blank pages. This doesn't have to be a bad thing. But you may need to focus on those blank pages, if you want to see them filled. The question is, what do you want on them? You must see your vision and set out to complete it. Your friends and family will help, but you must reach out and ask. Help them out, too.

Capricorn (Dec. 22-Jan. 19)

You might think that life is a lonely road, and it can be. But, that doesn't mean that is the only story. There are many roads with twists and turns. Though we enter and leave this world alone, we travel throughout this world together and that makes all the difference. Keep an open mind and an open heart. Every chapter has a beginning and an end. It's exciting. Enjoy!

Aquarius (Jan. 20-Feb. 18)

Your mind is where your heart is. Your passion is the key. You don't have to keep looking for the only way forward. You can find the answer in your heart. Look deeply into your mind's eye and don't be afraid of the answer. Keep moving forward and do your best. You'll find the answer if you ask it honestly and keep your word to yourself.

Pisces (Feb. 19-March 20)

Be honest with yourself, do you really want to change? Maybe you think that you want to change, but you really don't. The next two weeks are peak manifesting time for this moon, so while you don't have to rush into anything, you don't want to procrastinate. For your biggest plans, give yourself until the corresponding full moon in Gemini on December 12 to make it happen.
