

***Look toward the stars and revel in the splendor of the season. You don't need fancy things to have a good and happy life. This week, the Last Quarter Moon occurs on Tuesday. Reevaluate your priorities and prepare for another shift. You can spring and bounce towards greater things, if you put your mind to the task. Madame G reminds you to be grateful. You are capable!***

### **Aries** (March 21-April 19)

In every season of life, do what you can to move forward. Put your feet in the direction you'd like to head in and start walking. If you're looking for work, remember, you need something that is more than profitable, it makes you want to wake up and go to work. You might just find it within the next two weeks. Or better yet, create it!

### **Taurus** (April 20-May 20)

Believe in yourself, you're a shooting star. You're capable of more than you think. Just use a soft-sell approach. A casual mention of this something exciting you're engaged in, might be just enough to get people curious, and they'll be finding ways to hitch their wagon to your star.

### **Gemini** (May 21-June 20)

It's easy to get bummed out, but you will get through this. You, too, can fight through the bog of unrequited dreams to live the life that's even better than you ever thought possible. Don't give up on yourself. Keep pushing toward your best future. Be all that you can be!

### **Cancer** (June 21-July 22)

You've taken responsibility to a whole new level. Let go of the idea of perfection. Embrace your

future and live the life you've always wanted. This may or may not strike you as a profound thought. But, if you take a moment to think about it - you're halfway there. Good luck!

### **Leo** (July 23-Aug. 22)

Do your best to stay out of controversial conversations and pay attention to your health. If the source of stress is coming from someone close by, pay attention to your need for space. Don't let worries over how long it will take to finish a project keep you from taking the first step.

### **Virgo** (Aug. 23-Sept. 22)

Don't give up on yourself. Keep pushing forward and share your love with others. You don't have to be a pushover, but remember compassion isn't weakness. Your greatest strength is in showing others how to live fully and with conviction without hurting anyone. You're a guest performer in others' lives - let them save themselves. Do your own thing - save yourself.

### **Libra** (Sept. 23-Oct.22)

Don't be afraid of a little rivalry. You may learn the most about yourself by watching yourself in opposition. There are many lessons to be learned. Don't give up just because you learn something that you don't like. Ask yourself the tough questions. Are you able to work with someone you disagree with? It's something to consider. Be brave.

### **Scorpio** (Oct. 23-Nov. 21)

You're more capable than you think! You've got this. If you're afraid, remember it takes courage to get though life. If you're inspired to dive into a project, take some time for testing and sampling first. And keep the budget reasonable. You could change your mind a few times before you settle on a plan of action.

### ***Sagittarius*** (Nov. 22-Dec. 21)

Whoa! You should step back and take a breath. This is the kind of thing that breaks your heart physically and mentally. Don't get so lost in the details that you lose sight of your life, family, and goals. You're better than this. Take a moment to give yourself some much needed self-care. This means more than spa treatments and cucumber water. Focus on your mental health.

### ***Capricorn*** (Dec. 22-Jan. 19)

Don't waste time trying to "fix" others and make them "better." All you really do is make them angry. If you want to reach people, really reach people, you must take yourself less seriously. You can't make others conform to your dreamed up reality. It might be a nice place to live, but your loved ones have their own idea of heaven. Learn to live and let live.

### ***Aquarius*** (Jan. 20-Feb. 18)

Free yourself from the tyranny of your own mind. You are capable of more than you'll ever know. Take the plunge to be the best version of yourself. Don't rely on gut checks and guesswork. Instead, map out a project plan and a realistic budget. You know you can figure anything out.

### ***Pisces*** (Feb. 19-March 20)

Be true to yourself, without hurting others. Often you may hear people exclaim: "It's the truth." Well, the truth doesn't mean you get to throw out all the rules. You may gently inform people of your opinion. Everyone's entitled to an opinion, you know. There is a time and place for standing your ground and a time and place for letting go.
