

***Ready for a new beginning? On Nov. 26, enjoy the November New Moon. Consider your spiritual journey, maybe you need a refresh and a new path. Well, this is the perfect time to begin something new that you might have avoided otherwise. Reflect on where you'd like to go and what type of life you'd like to have, not just the effects. Who are you?***

**Aries** (March 21-April 19)

If you're angry every time something doesn't go according to plan, this will be a long miserable experience. Instead, reflect on what you've learned. Appreciate the people the universe brings into your life and do your best with each passing day. You're more than your accomplishments and more than your past. Keep moving forward with a purpose. Good luck!

**Taurus** (April 20-May 20)

Don't give up on yourself. Keep pushing forward and share your love with others. You don't have to be a pushover, but remember compassion isn't weakness. Your greatest strength is in showing others how to live fully and with conviction without hurting anyone. You're a guest performer in others' lives. Let them save themselves. Do your own thing. Save yourself.

**Gemini** (May 21-June 20)

Be careful about the judgments you make when you enter someone else's story. Remember, you only ever enter someone else's story in the middle and during dialogue. So, keep your initial judgments to yourself until you've had a chance to evaluate. Once you've had time to OBJECTIVELY test your gut, then you can go ahead and take whatever action is necessary.

**Cancer** (June 21-July 22)

---

Live free or die trying. You can make the choice to live well or not. It's your life and the choice is up to you. From now until December 21, let your new mantra be "responsible indulgence." Make mindfulness a practice BEFORE the holiday-party season begins in earnest and you'll set yourself up for success.

### **Leo** (July 23-Aug. 22)

Keep showing up. You may lose faith in yourself, but you can do more than you've ever imagined. Others will catch up with you and show you they care, too. But, when people turn away they may have a reason completely unrelated to you. You're more than this or any one incident. Give people the room they need and show them you care.

### **Virgo** (Aug. 23-Sept. 22)

Keep pushing toward your dreams and you can change anything that you want. In your life, this is the world you can imagine for yourself. Don't keep trying to live in a world that you've created. Instead live in the world that you were born into.

### **Libra** (Sept. 23-Oct.22)

Don't forget who you are. Be kind. You're more than you think and others know it. You may have been forced to tighten the belt a bit while Mercury backstroked through your fiscal sector. Now that it's correcting course, you'll be wise to stretch out that self-restraint as long as you can.

### **Scorpio** (Oct. 23-Nov. 21)

Leave it to the experts. Just kidding, that's a stupid idea. They'll just mess it up. Instead, focus your energy on yourself. It's time to reflect on what you NEED. Don't even worry about what you want out of your life. Your focus should stay on your needs.

### ***Sagittarius*** (Nov. 22-Dec. 21)

Some people aren't on your side, but you need to learn to trust yourself. In your life, the world will show you many powerful things and you can choose to ignore them or not. It's up to you to live as you've always imagined. Give yourself the greatest gift you can. Trust yourself to make the right decisions and have what it takes to succeed.

### ***Capricorn*** (Dec. 22-Jan. 19)

Believe in yourself and show your love. If you feel lonely, do your best to show your friends and family that you care. Life is easier than you think, if you show love to those around you. Stay focused on the strengths. These next weeks are the perfect time to assess your technology and get whatever you need to stay on top of your game.

### ***Aquarius*** (Jan. 20-Feb. 18)

You're more than your parts. You're not a robot. You can create anything that you want and change your life for the better. Don't stress yourself. Allow your mind to wander away from what it knows. Delve into the unknown and explore as you go. Don't be afraid of what you see. It is all part of you.

### ***Pisces*** (Feb. 19-March 20)

You can do this. You can do what is right without hurting anyone. Don't give up[ on yourself. Keep trying to do the best you can. If you fail in your endeavor try, try again. Your life is the greatest gift you have. Stop deluding yourself. Life is not a game.
