

Aries (March 21-April 19)

Madam G feels the heat from Aries' warning sign. Your energy is high and full of excitement. You're in full possession of strength and vigor. This month fuels and energizes you. But, your family requires rest. Take the time for health and release that energy in your morning run.

Taurus (April 20-May 20)

Your business sense will see you through dear Taurus. Ever vigilant in your meticulous records your professional life moves forward. It will cost you emotionally. The up and downs feel unsteady and heart wrenching. This month is full of turbulence, an unwelcome, but needed cleanse.

Gemini (May 21-June 20)

Watch your energy levels this month Gemini. You may feel dragged in various directions. This is an uneasy time. Everything is as clear as mud, but perhaps less nutritious. You may be clearheaded, but is your heart aligned with your body and soul? Use good sense when judging others and attempt composure.

Cancer (June 21-July 22)

Madam G sympathizes with the light of Cancer. Your balance and beacon, the moon, is out of commission this month and you'll feel the full effect. Work is piling up and loves are pulling away. It's easier for the married water signs, who need not look far for their other halves. Beware of energy drains from those who rely on you.

Leo (July 23-Aug. 22)

This month is difficult for many signs, but you'll weather it better than most. Your warning investments may not yield what you thought, or in time. But, in the area of personal growth and happiness you will find greatness in a bad situation. Will you meet your soul mate in a fender bender? Did your child get expelled, but the new teacher is cute and single too? Make the most of calamitous situations.

Virgo (Aug. 23-Sept. 22)

Pull out the sunscreen this is the month of epic failures, adventures, and more. Envy is not for you lovely Virgo. Your earth sign is strong and though the shadows seem greater than usual think clearly and act wisely. This is your time. Enjoy!

Libra (Sept. 23-Oct.22)

Work is stressful and weighted by your unusual resentment of others. This is not your true nature. All will be well, take your time and rely on the strength of your loved ones. Don't let the upcoming arguments get you down. Use the Libra's balance to sort out any disagreement, hear both sides and make your decision.

Scorpio (Oct. 23-Nov. 21)

The moon is disengaged and your water sign feels the intense and unpleasant pressure. You feel the opposition and you're 100% sure they'll align against you. The benefit is you know your enemies. You're prepared for attack. Your love requires attention and patience, forget making plans. Be true to yourself, only you Scorpio really understands you.

Sagittarius (Nov. 22-Dec. 21)

Keep a clear head and act cautiously. Support is likely non-existent right now. But your main trait is aloofness and this serves you well. Search inward and do your best. Work is tough right now. Threats surround you from all sides. Your love life is looking up in that you've crossed all hurdles and can move onward.

Capricorn (Dec. 22-Jan. 19)

This is a weak month for the entrepreneur. This is a rather negative time. Your loved ones are driving you crazy and it's not all their fault. Do your best to prioritize your life. Make difficult choices. If you've experienced issues with drugs or alcohol now is the time to kick the habit and get help.

Aquarius (Jan. 20-Feb. 18)

Aquarius September is your lucky month! Your business ventures are looking up and you have so much coming up. You're balancing family and work. The stakes are high and you need this moment to last. The stars are against you, as they align with opposition. Take your time, but don't waste it.

Pisces (Feb. 19-March 20)

Stay focused Pisces. Your hard work and investments are not turning out the way you wish. But it's not all bad. You must continue forward and press on. It's important that you stay the course. Your various projects keep you grounded and that's good. Find peace and joy in your daily routine, but don't forget your purpose.
