

***The Sun and Mercury are in Sagittarius and highlight the need for understanding your place in the larger global context. What's your legacy? Consider where you are right now, today. Madame G recommends working on one area of your life that needs improvement. Take a class, read, or hire a coach. By taking these small steps forward, you'll get there. Good luck!***

### **Aries** (March 21-April 19)

Life is a series of stages: you're born, age, and die. What season of life are you in? During the aging process, your life is rich and varied. You may transition from feelings of optimism to pessimism and glorious moments in between. Madame G suggests evaluating where you are, now. Be grateful. This too shall pass. Look into your heart and discover truth and peace.

### **Taurus** (April 20-May 20)

Life has taken a few unexpected turns and perhaps a few inevitable ones. It's easy to look at an old flame or friend with hatred, but consider yourself lucky for having learned the lesson. It's better late than never. You must learn to forgive. But, don't forget. Consider the wise old adage: Fool me once shame on you. Fool me twice, shame on me. Lesson learned!

### **Gemini** (May 21-June 20)

Your heart seeks connection. This is both a blessing and a curse. Some people take more than you're willing to offer. They're emotional vampires or the Dementors from Harry Potter. They're sucking the life from your soul. Maybe you're the Dementor and don't realize it. What can you do? Go out and meet new people. Happiness is not an absurd concept—it's possible.

### **Cancer** (June 21-July 22)

You've entered an interesting life stage. You may have discovered the path or perhaps you're still forging through. Consider for a moment that life is more than achievements. You may add another certificate or class to your name, but will that really satisfy your inner longing? What is your definition of success? It may surprise you. Good luck!

### **Leo** (July 23-Aug. 22)

Longing for a little adventure? Perhaps it's of the emotional or mental variety. Nothing suits the soul better than to curl up with a good book by the fire. It's a sign of luxury and civilization while still appealing to your primitive self. Let your hair down. If life's been a little heavy recently, you deserve a warm and fitting adventure. Be bold. Go crazy, read two books!

### **Virgo** (Aug. 23-Sept. 22)

Where are, you headed? Not all who wander are lost. But, those without a heading are sure to go nowhere or wind up lost. Often, the challenging times in our lives define us and forge us more and better than the good times. Use this season in your life for self-discovery. What do you really want? How will you get there? Take a small step in the right direction and move. Now!

### **Libra** (Sept. 23-Oct.22)

Are you authentic? Your strong sense of order often lacks humanity. Believe it or not, you're human too. You may hide your thoughts better than others (or think you do), but we're all on this ship together. Small courtesies go a long way. Bring meaning into your life by sharing life with strangers. Open the door for someone. Smile and enjoy. Peace will follow.

### **Scorpio** (Oct. 23-Nov. 21)

Are you experiencing an emotional spring or winter? It's healthy to encounter all seasons. Your life is more than a job, career, or even your family. What makes you unique? Find your why. Seek, search, and learn, this is the path to inner peace. In the process, you'll help others while discovering hidden inner talents and strengths. Live your strengths!

### ***Sagittarius*** (Nov. 22-Dec. 21)

Your time in the sun will prove useful. What steps are you taking to achieve your goals? You may experience a great deal of hope and clarity this week. Your next step will be to work even harder towards your goals. Consider Muhammad Ali's words: "I hated every minute of training, but I said, 'Don't quit. Suffer now and live the rest of your life as a champion.'"

### ***Capricorn*** (Dec. 22-Jan. 19)

Hello tender soul. What are you doing for your own happiness? If you have any pent-up resentments, consider letting them go. Take action and take control over your own life. Don't worry about what you can't control such as your boss, president, or life in general. You have no control. All you can do is enjoy the moment with loved ones and laugh at the wind. Smile!

### ***Aquarius*** (Jan. 20-Feb. 18)

Life is but a dream. But, it doesn't have to be a nightmare. Many face hardships and handle them with grace and come out ahead. Some falter and fail even with a King's fortune. Tony Robbins said: "Everything that happens to you is an asset to your outcome." What will you do to ensure this? Change your thinking and you'll change the course of your life. You've got this

### ***Pisces*** (Feb. 19-March 20)

Considering a new life path? Grab hold of it with both hands. Be bold! And take action. Your soul will know what is the right action to take. This is the time. You're more than ready. If you're a lover of books and you can think of nothing better than organizing them for the rest of your life—you might be a librarian. If this bores you to tears, smile, life is funny like that.
