

Enjoy the favorable aspects of the Full Moon, this Friday, February 10. Though there are exceptions to every rule, you'll experience greater luck today for new projects. You'll feel sparks of creative juices, and make incredible come from behind plays. Channel your inner Tom Brady, and make history and lead your team to victory. Madame G suggests taking a holiday, soon.

Aries (March 21-April 19)

Your heading in new directions fast. This is exciting and terrifying. Let the good times roll! Take time for your piece of mind and remind the ones you love—that you care. Also, take some time for a little R&R. Valentines is coming up. Where will you take your sweetheart? Show him or her, you care. Remember, a little romance goes a long way, write a poem on a napkin.

Taurus (April 20-May 20)

Fear not! You're not a fool in love, just a little misguided. The greatest gift you can give someone is your full and free forgiveness. This doesn't mean you allow them to harm you or your children, pets, family, or property. And it doesn't always mean you stay with them. But, it does mean that you're willing to love and forgive yourself enough to move on. It's your choice.

Gemini (May 21-June 20)

To each his or her own. There is no right answer to your heart's desires. You must make the right decisions for you. And only you know what that means. If you feel it to be true then it likely is, for you, in the moment. If not, then it isn't. A good rule of thumb, is that, if it's not a, HELL YES! Then it likely is a no. Don't be afraid of the answer. Go for it! Or don't! It's your heart.

Cancer (June 21-July 22)

Passion is a funny thing. It leads in many directions, some good, some not so good. If yours make you feel good and bring joy to those around you—including strangers. You're on the right track. If it doesn't, then you may need to reevaluate. But, keep in mind Henry Ford once said: "If I asked people what they wanted, they would have said faster horses." Trust yourself.

Leo (July 23-Aug. 22)

You like a good challenge. It takes the fun out of monotony. You can't change the past and the future is elusive, but this moment presents new mysteries. Discover something new every day whether it's a new idea, book, or building material—learn. You can do anything. You make this moment great for yourself and others. It's your journey and it's never too late for more. Enjoy!

Virgo (Aug. 23-Sept. 22)

Don't settle for less! Tony Robbins says we should increase our standards rather than expecting less. What does this mean? Well, in order to avoid mediocrity, you might have to take a risk. Challenge yourself to be or do something that you've never done. This is a different challenge for every person. Only you know the right answer. Only you can take the challenge. Do it!

Libra (Sept. 23-Oct.22)

Your heart's in the right place. But, you're letting others down. You're not Wonder Woman, doing it all with perfect hair and armor boobs. Just take a look in the mirror and ask yourself: what's important? You'll notice things you can live without. You may discover some people fit that category. Whatever the case, choose wisely and carefully. It's important you do this now!

Scorpio (Oct. 23-Nov. 21)

Is stress making you sick? Maybe you're in the wrong job. Maybe there isn't a perfect life. It's easy to lose sight of what's important for short sided material gain. But, don't forget why you're working hard. Take a long hard look in the mirror. What do you want? How will you get it? Your desire is nothing more or less than your driving desire for what you want and need. Get it!

Sagittarius (Nov. 22-Dec. 21)

If you feel the need to do something, you should do this. It's especially important, if this will provide you with security or financial freedom. If you've been neglecting this side of yourself for some time—it's important that you take care of it now. Don't wait. You could lose more than your next meal or video game. Consider the needs of others and act. NOW!

Capricorn (Dec. 22-Jan. 19)

Feeling a little under the weather? You may need to take a break. When was the last time you rested, really rested? You may notice that a strong sense of anxiety keeps pushing you into movement. Find out why. You may feel frustrated and the anxiety may go deeper than the surface level. Dig deep and discover yourself. Once you do set that goddess free!

Aquarius (Jan. 20-Feb. 18)

You're lucky and unlucky in love. The search for meaning probably leads you to discover the flaws in other, but unlike the other signs, it's a flaw of an idea—and the flaw is yours. Human beings are not ideas. They have independent thoughts and feelings. If you put them on a pedestal, they're bound to fall off. Consider the human element and study from there. You'll love it!

Pisces (Feb. 19-March 20)

You have a stubborn spirit—it's childlike. If left unchecked that becomes childish and that's not cute. You don't have a parent to curb you now. It's up to you to check your behaviors. You may feel like lashing out and hiding deep within yourself. But, remember that's not how adults act. Toughen up butter cup! People are not against you—they're for themselves.
