

The Moon is Void of Course on February 17, so you may want to hang on for a bumpy ride. If you learn anything over the course of the week, be prepared to take action. But, now is a good time to wait. Be patient. Think through your options carefully and don't make rash decisions. Madame G recommends curling up with a good book and staring into the void. Good luck!

Aries (March 21-April 19)

Do you have a sense of humor? You may need to find it sooner rather than later. You're neither the best or the worst. Stop being so hard on yourself. Take a deep breath and let go of that nasty insecurity. It does you no good. Even if you hold your nose around all the stinky issues in life—you still need to breath, eventually. Smile. You're on planet, Earth. You'll be fine.

Taurus (April 20-May 20)

Your life, and indeed all lives, hang in the balance. Nothing is guaranteed, not your health, happiness, or safety. Stop trying to control everything and consider what is at stake. It's merely your life and wellbeing. Challenge yourself. Enjoy each moment for what they are—gifts. You may make mistakes, but you're learning. You may fail, but it's not a test. You're worthy! Do it!

Gemini (May 21-June 20)

You're in need of a little counsel—your own. The only one who can make a relevant decision regarding your life is you. No one decides your fate, except you. This is a universal truth. But, there's no guarantee that anyone will appreciate you or your decisions. That is not guaranteed. If you're looking for approval there's only one opinion that matters—yours. The rest is noise.

Cancer (June 21-July 22)

Your heart is a lonely hunter. But, you don't need to stand alone. It's difficult to reach the ones you love. You must! They need you. The friends you have who prove themselves are worthy of love. If you continue to push them away, one day they may not return. There is a limit to how far you can push someone. Show love—you're worth it. Give all your heart. Do it!

Leo (July 23-Aug. 22)

Your gut is teaching you something, but your nose already knows. You're ready for some action. So, stop loafing about take stock of your surroundings and have so some fun! You're worth it. Take action as you see fit and help others when you can. Empathy may be problematic for you, but that doesn't mean it's not there. It's just hidden under some horse blankets. Let it out!

Virgo (Aug. 23-Sept. 22)

Your losing ground. You don't know which way is up and or where the road leads. This isn't a bad thing. In life, there are no bad decisions. There are the choices you make and those you don't. The unintended consequences always slap you back, if you're unprepared. There is a cost. Inaction results in nothing. Hasty action results in chaos and mess. What will you do?

Libra (Sept. 23-Oct.22)

You have a choice to make. You can run and hide or stand there and fight. Neither option is right or wrong. There are consequences. It's up to you to decide, which ones you're willing to pay, and which ones you're not. Try laying out the choices on paper. Draw a column down the middle determine which items strike joy. You'll find the ones you can live with. Choose those!

Scorpio (Oct. 23-Nov. 21)

It's now or never. Stop hesitating. Stop trying to make the "right" decision. There isn't one. You only have so much time on this planet, with so many minutes. The choices you make are irrelevant to time. Make your mark on the world. Don't wait. Don't hesitate. Do it now! The time is now. There is no other time. You must act now! Free fall, with a parachute. Do it, NOW!

Sagittarius (Nov. 22-Dec. 21)

You must do something. You can't spend your life loafing about. You may feel comfortable, but the right word is lazy. You might also have gotten in the habit of using distractions, like work or alcohol. Search for balance and learn to mediate what you want and what you need. This life can be so much more than broken beer bottles, broke trucks in the yard, and angry dogs.

Capricorn (Dec. 22-Jan. 19)

Your happiness is important. Stop pretending you know what it means. You can't find what you don't seek! So, take some time to really understand yourself. Stop trying to force yourself to be happy and find out how you really could be happy. Ask yourself what you really want. Then go out there and look for it. If you already have it, then STOP! Smile. You did good. Go you!

Aquarius (Jan. 20-Feb. 18)

Your heart is an open book, ready and willing to absorb all that is good and wholesome. But, love can also be dirty, grimy, and exhausting. It can bring you up and tear you down. That is the power of love. Don't betray your own heart. Stop looking to others for guidance and hope. You have enough in you for all the world to love, as you are. You're enough here and now. Love!

Pisces (Feb. 19-March 20)
