All “close contacts” will be informed of the positive case(s) and instructed to quarantine for 14 days. Symptomatic staff may return to work after 10 days plus 24 hours after the fever is gone and COVID-19 symptoms have improved. Asymptomatic staff who have been “close contacts” may return to work after a 14-day quarantine.

The PED has collected this data since Aug. 17; since then, 662 total cases have been reported in 321 schools, including 458 staff members and 204 students.

Since schools began operating in the hybrid mode on Sept. 8, a total of 601 cases have been reported in 298 schools, including 413 staff members and 188 students.

New Mexico's Public Education Department rapid response team has removed duplicate records in case counts as of Oct. 19. In addition, New Mexico's Department of Health has advised the PED to cancel certain cases previously reported because of insufficient details.

All “close contacts” will be informed of the positive case(s) and instructed to quarantine for 14 days. Affected classrooms and facilities will be cleaned and disinfected. Staff must be tested if symptomatic or a “close contact;” however, staff members will not be required to present a negative test result in order to return to work. Symptomatic staff may return to work after 10 days plus 24 hours after the fever is gone and COVID-19 symptoms have improved. Asymptomatic staff who have been “close contacts” may return to work after a 14-day quarantine.

The PED has collected this data since Aug. 17; since then, 638 total cases have been reported in 310 schools, including 441 staff members and 197 students.

Since schools began operating in the hybrid mode on Sept. 8, a total of 568 cases have been reported in 285 schools, including 389 staff members and 179 students.

New Mexico's Public Education Department rapid response team has removed duplicate records in case counts as of Oct. 19, and as a result, the cumulative case count has been reduced. In addition, New Mexico's Department of Health has advised the PED to cancel certain cases previously reported because of insufficient details.
