

Enjoy the Cold Full Moon Dec. 22. This wonderful event takes place before Yule Tide and there can be no doubt as to why it's called the "cold moon." But if you're observant, you'll notice the beauty of every season, every day and in every moment. Madame G wishes you a very Merry Christmas and a Happy New Year! Bundle up and enjoy the cold weather.

Aries (March 21-April 19)

Shake it off! You're not responsible for how others react to you, work on yourself and move on.

Taurus (April 20-May 20)

You may want to take a step back and assess the situation. Don't assume you know what's best for everyone. You might be right, but that doesn't mean anyone will thank you if you interfere in their life. In fact, you might find that the people you're "helping" actually resent you. This might be a rather unpleasant reality, but it's important to recognize—that you don't know everything.

Gemini (May 21-June 20)

Do your best and keep your game face on. You don't know what you'll find on the other side of the expanse, but if you keep an open mind—you'll get there. You don't have to know everything in order to live the life of your dreams. But, you may have to accept that everything you think you want—might not actually be what you want. Keep an open mind and keep trying.

Cancer (June 21-July 22)

This is the life you live — you don't need a do over — you must accept that this is your life. You can't be someone else. But the circumstances leading up to you are remarkable. You're capable of so much more than you could ever imagine. Don't lose yourself in someone else's dream. Keep your eyes open and do the best you can when you can. Leave the rest up to others. Good luck!

Leo (July 23-Aug. 22)

Show your faith in others and they'll show their faith in you. Trust in a two-way street, you must give a little to get as well. But, that doesn't mean that everything must be tit-for-tat. Learn to do for someone who will never ever be able to repay you. In this way, generosity has a way of passing along from one person to another. It's never too late to pass on the good. Do good — today.

Virgo (Aug. 23-Sept. 22)

Your heart is not a victim to circumstance. You can do anything you want and keep pushing forward. Give yourself over to the moment and share your love for others in new ways. But, at the end of the day don't lose yourself in your past or your future. Accept what is and live the best life you can, from this day forth and until your last — show love and laughter. Live your life well!

Libra (Sept. 23-Oct.22)

Generosity is a strange creature. It inhabits itself in your skin and shows you what is possible. Don't forget that each day you can be generous with your time and your emotions. Sometimes the best thing you can do for someone else is to show kindness. Smile. Your heart is not an emotionless void. Showing less emotion is not always wise. Be yourself and trust in yourself.

Scorpio (Oct. 23-Nov. 21)

Don't forget who you are! And never forget these wise words from H. Jackson Brown Jr.: "Never forget the three powerful resources you always have available to you: love, prayer, and forgiveness."

Sagittarius (Nov. 22-Dec. 21)

Learn to accept that you must take action when necessary. The right response is not always your first gut reaction — sometimes it is — and many times, it's not. Focus on the task at hand and ask yourself what you'd like to accomplish. Give yourself time to take chances and try new things. But, don't get stuck in the mode of thinking that you can't move forward. Do your best.

Capricorn (Dec. 22-Jan. 19)

Learn to forgive and open up your hear to new possibilities. In the end, you might be the problem not "them." After all, a shift in our own perspective can shift the whole world. Think about it...but remember, the change must happen in the heart.

Aquarius (Jan. 20-Feb. 18)

Show love to those around you. Someone you know is suffering from a deep emotional wound to the heart. You might not recognize it at first due to all the "growling." But that doesn't mean they don't deserve love. Strengthen your heart and do your best. Now is the time to be who you need to be — you're more than a body or a mind. Seek wisdom and peace.

Pisces (Feb. 19-March 20)

Grow each day as if it was your last. But treat each day as if it was precious. (It is.) Your heart can do so much more than you'd ever have imagined. Be brave. The truth is out there. Keep
