Meet Yuki!

Yuki, aptly named, means snow in Japanese. Yuki is a large, beautiful all blonde/white male mixed breed. He's at least 2 years old, fixed, and up to date on vaccines!

Typical to the big dog persona, he thinks he is a lap dog, always trying to sit on his foster and afraid of his own tail! When he hears his foster mom arriving home from work he makes it known that he is ready for his dinner by howling a sweet song until he is fed.

He enjoys walks, belly rubs, having his gorgeous mane combed, and tortillas. He does NOT enjoy water/baths or cats.
